

## Forever Marriages Premarital Counseling

While you cannot prepare for everything you will enjoy and encounter in your marriage, premarital coaching will help you in three ways:

- Reveal the expectations you have for your spouse-to-be.
- Provide tools for your marriage to thrive.
- Provides a solid foundation to the sanctity of marriage.

As a team, we will explore the strengths and growth areas of your relationship based on your unique couple assessment which will show us the exact areas to focus on!

Premarital counseling is incredibly beneficial for:

- Pre-engaged couples [dating] who are looking to explore the idea of marriage and want to ensure their relationship has what it takes to make it work long term,
- Engaged couples who are headed toward the isle and want to increase their chances of success in their future marriage, and
- Married or remarried couples who would like to deepen their relational skills as they continue merging their lives [and families] together.

You and your partner will have the opportunity to openly explore the core relationship areas of:

- Communication
- Conflict resolution
- Role of marriage boundaries
- Finances / Financial goals
- Marital expectations
- Marriage roles
- Health & Wellness
- Children and parenting expectations
- Relationship values
- Family of origin dynamics
- Religion
- Sex and intimacy, yes, because they are different!

We strongly encourage couples to commit to this work now because continual investment in your marriage is the secret to a Forever Marriage.
